Valuing Our Past... Breeding for the Future

This pretty suri is the daughter of brown herdsire Peruvian Ricardo which sold at the 2004 Breeder's Choice auction at Magical Farm. She is a beautiful package, especially if you are looking to raise colored suris! She has nicely penciled fawn locks, a trademark of her famous sire and nice luster.

Eliza is bred to our award winning 3/4 Accoyo Herdsire, SBS Argonaut. The combination of Argo's Luster and density and Eliza's locks and color should produce an outstanding cria!

Progeny

Eliza produce an outstanding cria in 2005, her first. HSF Silken Mist. **Misty** is a 1/2 Accoyo female from DPA Prince of Magical Farm. Prince is a full Accoyo herdsire from the well known Peruvian Import, Estrello. Misty has nice, tightly pencil locks from her neck to her back legs and she carries the luster of her mom. Her weaning weight at 5 months was 70 pounds. We are watching her closely as she develops into a nice show-quality alpaca.
